The screenshot displays the Cisco Packet Tracer interface. On the left, a network diagram is visible in the 'Physical' tab, showing a central 'Switch-PT Switch0' connected to four other devices: 'Server-PT Server0' at the top, and three PCs labeled 'PC-PT PC1', 'PC-PT PC2', and 'PC-PT PC3'. The connections are represented by lines with green arrows indicating data flow. On the right, a window titled 'PC3' is open, showing the 'Desktop' tab. Within this tab, a 'Web Browser' application is running, displaying the website 'http://www.godwin.com'. The browser's address bar shows the URL, and the page content includes a welcome message and several quick links: 'Small text', 'Copyrights', 'Insert text', and 'Image'. The bottom of the screen shows the Windows taskbar with various application icons, the system clock indicating 2:22 PM on 04/04/2024, and the language set to English (IN).
